OGUNQUIT HERE WE COME!!

by
Steven Tuch

Last Thursday 4A, 4B, and 1B went to Ogunquit Beach for the day. (5A, 5B, and 2A had gone the previous Monday; 3A, 3B, and 2B had gone the day before).

We cleaned our bunk, boarded the bus at 9:30, and were on our way. After riding for a while, one of the bus' rear wheels blew out. The driver stopped the bus, examined the rear wheel, and decided that he could make the trip all the way with the flat.

After another half hour of travelling, we finally reached the beach. We went right into the water; lunch was at 12:30. During the afternoon the following activities were held on the beach: football, handball, and swimming.

At 4:00 o'clock or so we left for camp. We arrived back after first bell had rung. Campers and staff alike enjoyed the trip.

(Ed. note-This trip is indicative of the happenings and feelings of the rest of the camp.)

MARK LEWIS TANGLES WITH FIERCE-
LOOKING GARTER SNAKE

by

His Cousin Donny Hurwitz

Last Sunday Mark Lewis caught a three foot long garter snake which was later skinned by Paul Renfrew on the steps of the Arts & Crafts Bunk. The insides of the snake was burned in the incinerator, while the skin is still drying out. Mark will later use the skin for a belt. The snake's head was chopped off and is now in a bottle of alcohol. Mark said, that with all his experience and adventures this one was the toughest he had ever come up against.

4A's TRIP

by Steve Tuch

Last Monday Bunk 4A, as a reward for pine oiling the mess hall, earned a trip to Kezar Falls. We left right after supper. There were ten boys; Eliot Entner took five at a time in his car. When we got to Kezar Falls we went directly to the drugstore and bought candy and comics. At 7:45 we left the town and started back for camp. Lou, who was having his car repaired in Kezar Falls, took back five boys while Eliot took back the rest. When we got back to camp we watched the remainder of the basketball game.

GARSYS EXPEDITION

by

Richard Goldman

Sharky Garsys led 1A on an unbelievable, phenomenal, undescribable trek through the wilds of the borders of Long Pond. After being ferried over in the motor boat by Charlie Hennekins in three trips, 1A began its long journey at Chuck's Cabin. We started off on an easy trail which steepened when we came to a high cliff. Everyone got up the cliff (with Sharky's help). Freddy London and Bob Goldman lent a hand when it came to Steve Brown. After walking inland for a mile, we came to swampy area. Yours truly was the first to fall in. Although we were supposed to meet at Chuck's Cabin for a return ride back, we circled the lake. The "trip" took 3 hours.
